Do You Believe in *Why Not?* Witches?

What can the
Salem Witch Trials
tell us about the resurrection
of Jesus Christ?

Hundreds of millions of people believe that Jesus came back from the dead. CSU, Sacramento Philosophy professor **MATT MCCORMICK** presents a decidedly unpopular view — he forcefully argues that the central tenet of Christianity, the resurrection of Jesus, is false. In *Atheism and the Case against Christ*, his recently published book, he undermines Christianity and theism at their foundations; provides a powerful model for better critical reasoning; and builds a compelling case for atheism. McCormick offers persuasive arguments that are accessible, thoughtful, and new.

The presentation will be followed with a lively Question & Answer session.
